Environmental Economics and Policy

Most environmental and natural resource challenges are caused by human activity and government policy. Majoring in Environmental and Economics and Policy allows you to study environmental sciences through the lens of human behavior and Government policy, and to become an expert at identifying solutions to our current problems. You will learn that while policy and human behavior lie at the heart of many challenges, they are also our best hope for creating a better future.

Your Degree (BS) in Environmental Economics and Policy

Courses Required for Environmental Economics and Policy Major

<table>
