See PSEP's website for more recordkeeping templates and information: <https://agsci.oregonstate.edu/psep/resources>

Adapted from Penn State Extension materials, April 2020

¹Required for agricultural applications but recommended for all applications.

²If customer falls under the provisions of the Worker Protection Standard, the restricted entry interval (REI) must be recorded.

³Location should include address or a geographic description of the application site (such as circle number, map number or township/section/range), or GPS coordinates.
