Sarah Zwissler

[Trout Unlimited](#), Salmon SuperHwy Coordinator

Travel the Salmon SuperHwy, a partnership-driven effort to remove fish passage barriers and reconnect habitat over the six river-landscape of the Nestucca & Tillamook Bay watersheds.

Aaron Shaw

[Tualatin SWCD](#), Director of Natural Resources

Discover how partnerships support the TSWCD habitat program and learn about plans to mitigate for predicted impacts of climate change.

Jeffrey Steiner

[Global Hemp Innovation Center](#), Associate Director

Look at hemp and ways to imagine this new crop fitting into Western U.S. agricultural landscapes. After being locked in a time capsule for more than 80 years, there is a lot that needs to be discovered about where different hemp essential oil, grain, and fiber market classes should be grown and how to sustainably manage these in light of changing availabilities of natural resources.
