

Third Annual IPM Research and Extension Summit

Presented by the Oregon IPM Center

February 25, 2021 9:00am to 12:30pm

9:00 am	Welcome and Introduction
9:10	Flash Talks
9:55	Program Updates
10:45	Special Guest: Daren Mueller
11:35	Breakout sessions
12:10	Sessions reports
12:30 pm	Adjourn

Guest Speaker:

[Dr. Daren Mueller, Associate Professor and Extension Plant Pathologist, Iowa State University](#)

Daren is joining us to talk about his experience learning about Design Thinking and applying these tactics to IPM Communications. See his paper here:

[Using Design Interventions to Develop Communication Solutions for Integrated Pest Management](#) -

Daren S Mueller et al, Journal of IPM, Vol 11 Issue 1, 2020

Breakout Sessions and Discussions - All sessions are open to all attendees

Rodent IPM Working Group Planning Session and Research Discussion - hosted by Dana Sanchez
A discussion to talk RFPs, research needs and hear from those interested to re-rally the new Rodent IPM Working Group

Discussion on Alternative Chemistries - Impacts and Research - Navneet Kaur and Silvia Rondon.
A discussion about what industries are being affected and what research measures are being taken to address this issue.

New developments at USPEST.ORG: Introducing new email "push" plant disease risk and phenology model apps - hosted by Len Coop and Dan Upper
OIPMC has released several plant disease risk model mobile-friendly apps with a system to "push" risk levels and phenology status of these models via email. We'll have a demo of this system and discuss methods to obtain feedback for improvements and distribution.

IPM Communication: strategies for multistate collaborations and extension education

Hosted by Daren Mueller and Chris Hedstrom

Daren and Chris will moderate a discussion about multistate collaborations and infrastructure for "pest management networks" as well as some information about strategies for demonstrating impact.
