Subject: RE: CETs during covid

We are requiring CETs in 2021 and beyond because our evaluation of Extension programs have shown that the online version now is easier to administer using online training we are using now, actually better than when we had face-to-face workshops.

Subject: CETs during covid

Sam,

I had a question come up during my COVID-19 Impacts workshop today: For those with extension appointments, is there a change in Citizen Evaluation of Teaching (CET) requirements?

This is in context that the university has made eSETs for classes during the pandemic optional.

Cheers,
