

APPENDIX C. COMMON AND SCIENTIFIC NAMES OF CROPS,
FORAGES AND FORBS

Common names	Scientific names
alfalfa	<i>Medicago sativa</i>
barley	<i>Hordeum vulgare</i>
bluebunch wheatgrass-'Goldar'	<i>Pseudoroegneria spicata</i>
corn	<i>Zea mays</i>
dry edible beans	<i>Phaseolus spp.</i>
Great Basin wildrye-'Magnar'	<i>Leymus cinereus</i>
hicksii yew	<i>Taxus x media</i>
onion	<i>Allium cepa</i>
pacific yew	<i>Taxus brevifolia</i>
poplar trees, hybrid	<i>Populus deltoides x P. nigra</i>
potato	<i>Solanum tuberosum</i>
Russian wildrye-'Bozoisky	<i>Psathyrostachys juncea</i>
Siberian wheatgrass-'Valvalov'	<i>Agropyron fragile</i>
soybeans	<i>Glycine max</i>
spearmint, peppermint	<i>Mentha sp.</i>
sugar beet	<i>Beta vulgaris</i>
supersweet corn	<i>Zea mays</i>
sweet corn	<i>Zea mays</i>
triticale	<i>Triticum x Secale</i>
western yarrow	<i>Achillea millifolium</i>
wheat	<i>Triticum aestivum</i>

APPENDIX D. COMMON AND SCIENTIFIC NAMES OF WEEDS

Common names	Scientific names
annual sowthistle	<i>Sonchus oleraceus</i>
common lambsquarters	<i>Chenopodium album</i>
downy brome	<i>Bromus tectorum</i>
green foxtail	<i>Setaria viridis</i>
redroot pigweed	<i>Amaranthus retroflexus</i>
barnyardgrass	<i>Echinochloa crus-galli</i>
kochia	<i>Kochia scoparia</i>
hairy nightshade	<i>Solanum sarrachoides</i>
Powell amaranth	<i>Amaranthus powellii</i>
Russian knapweed	<i>Acroptilon repens</i>
yellow nutsedge	<i>Cyperus esculentus</i>

APPENDIX E. COMMON AND SCIENTIFIC NAMES OF DISEASES AND INSECTS

Common names	Scientific names
Diseases	
onion black mold	<i>Aspergillus niger</i>
onion neck rot, (gray mold)	<i>Botrytis allii</i>
onion plate rot	<i>Fusarium oxysporum</i>
onion translucent scale	
potato late blight	<i>Phytophthora infestans</i>
Insects	
cereal leaf beetle	<i>Oulema melanopus</i>
lygus bug	<i>Lygus hesperus</i>
onion maggot	<i>Delia antiqua</i>
onion thrips	<i>Thrips tabaci</i>
pea aphid	<i>Acyrtosiphon pisum</i>
seed corn maggot	<i>Delia platura</i>
stinkbug	<i>Pentatomidae</i> sp.
spidermite	<i>Tetranychus</i> sp.
sugar beet root maggot	<i>Tetanops myopaeformis</i>
willow sharpshooter	<i>Graphocephala confluens</i> (Uhler)
