NT = No tolerance listed at this time. [If NT, then default tolerance applies: Japan = 0.01ppm; Canada = 0.1ppm; EU/UK = 0.01 ppm; Korea and Taiwan = 0.0 ppm]

Ex = Pesticides that are exempt from tolerance in USA (no MRL established or needed)

? = No USA tolerance listed in US-EPA database (40 CFR 180)

-- = Pesticides exempt from tolerance in the USA are not listed as exempt in databases of other countries.

■ = Tolerance is lower than USA tolerance (some differences are small, some are large)
